Introduction to Rotary Fellowships

Rotary was founded on fellowship, a concept that has been expanded internationally through the Rotary Fellowships, groups that bring together members from different countries and cultures to enjoy a shared interest. In addition to fostering lifelong friendships, Rotary Fellowships keep members active in Rotary, sustaining their interest and further inspiring commitment.

The nearly one hundred Rotary Fellowships encompass a variety of vocations and avocations, ranging from sports and hobbies to professional interests — all of which serve as a way to extend international fellowship, friendship, and service. In addition to offering members an opportunity to share their passion for a particular interest with like-minded Rotarians, many individual fellowship groups enable members to use their hobbies or skills to serve others. For example, the Fellowship of Canoeing Rotarians has organized cleanups of polluted rivers, and members of the International Computer Users Fellowship of Rotarians conduct training sessions for Rotarians and other people in their community on how to use electronic media.

Rotary Fellowships began informally in 1928 when Rotarians with a shared interest in Esperanto joined together. In 1947, a group of Rotarian boating enthusiasts began flying the Rotary flag from their crafts, calling themselves the International Yachting Fellowship of Rotarians; this fellowship now boasts the longest continuous existence. The scope of Rotary Fellowships has changed much over the years, but today their common purpose is still to unite Rotarians in friendship and provide venues for enjoying their favourite recreational or professional activities.

QUEST SPEAKER—John Cagney—My New Zealand Holiday

Jane Lyn and John

Awesome; Breath-taking; Amazing; remarkable are all word conjured up by John’s latest holiday. John showed us his photographs and gave us fascinating information about the geography of the country. He told us about: the volcanoes that erupted and became extinct; the beautiful beaches; the perfectly spherical Moeraki Boulders formed millions of years ago; he told us all about the Royal Albatross.

Then he went on an over-night, Milford Sound cruise where he viewed the fiord’s spectacular waterfalls, mountains and wildlife. A great holiday, indeed, with his Mum, Dad and Nicky. In Johns own words “New Zealand is pretty much spectacular “.
